So Much More than a Warehouse

We know it takes more than just the right products to be a valued partner; our global network reaches across the UK, Europe, USA, Canada and South Africa so wherever you are, we are here for you. We employ the very best warehouse managers, we're efficient and we're rightly proud of our high fulfillment rates. We leave nothing to chance with quality control at every step, including double-checking every order before it leaves our warehouse. We recently opened our state-of-the-art warehouse in Holland, designed with our growing customer base in Europe in mind.

We are always looking for new representatives and distribution partners so if you think you the SECO business culture is right for you, let's talk.

On the Source

Finding the right product at the right price can be a difficult exercise, without factoring in the current issues of shipping and importing. We have an extensive supply chain across the world so let us take the strain and source the products you are looking for. We can manage all parts of the supply chain from design, branding, packaging, negotiation, manufacturing and quality control to consolidation, shipping, warehousing and financing. If you got a new product idea, we'd love to hear from you as we can turn your vision into reality quickly.

Cash is King

Every business has faced enormous challenges with the pandemic, Brexit and rising shipping costs, this has dealt a significant blow to cashflow. Whether you are looking for a partner to source products for you, import them to your chosen location or stock them for you, SECO has a responsive and agile answer for all your logistics concerns.
